

# Accounts and ID Management

As an employee of the Texas A&M University, you have various accounts established in order to gain access to Information Technology (IT) resources in use throughout the university. Some of the accounts are activated automatically while others require you to activate them.

To gain access to Liberal Arts IT resources, complete the **Information Resources Responsibility Statement (IRRS) & Liberal Arts On-Boarding Request** ([IRRS-Onboarding Form](#)).

To remove access to Liberal Arts IT resources, complete the **Liberal Arts IT Off-Boarding Checklist for Departments** ([Off-Boarding Form](#)).
